TECHNICAL BULLETIN

June 20, 2018
No. GFP-A002-A

SUBJECT: 00700, 00710, 00715-TV Snappy Anchor Substrate Requirement

The Snappy Anchor is a one-time-use fall protection anchor designed for combined wood substrates of compatible roof sheathing over trusses. Guardian Fall Protection is clarifying the minimum substrate requirements for the Snappy Anchor. The minimum combined substrate thickness shall be 3½". All fasteners must be fully embedded into truss.
