

COURSES

AUTHORIZED PERSON | 4 HOURS

This half-day program is designed for those individuals who are working directly where and when fall hazards are present and are required to use fall protection systems, equipment, or devices.

AUTHORIZED RESCUE | 8 HOURS

This course will teach the student how to perform a "PROMPT" rescue in a fall arrest event. Not only is this a legal requirement, but a best practice for anyone that works at heights, regardless of industry.

CONFINED SPACE AWARENESS | 8 HOURS

This course will instruct participants how to identify and classify different kinds of confined space, the permits required, the hazards associated with these spaces and the entry procedures required by Federal OSHA 1910.146 or the representative state OSHA.

CONFINED SPACE NON-ENTRY RESCUE | 16 HOURS

This module includes the Confined Space Awareness program plus instruction on tactical priorities of non-entry rescue, case histories, ventilation techniques and atmospheric monitoring strategies.

Minimum training required to be an Attendant, Authorized Entrant, and Entry Supervisor.

CONFINED SPACE RESCUE | 24 HOURS

This course includes information regarding tactical priorities of confined space rescue, respiratory protective system options and requirements, as well as case histories of previous entry rescues.

Minimum training required to be an Attendant, Authorized Entrant, Entry Supervisors, and Rescuers.

DROPPED OBJECT PREVENTION AWARENESS | 4 HOURS

This course is intended as a brief introduction to the hazards of dropped objects and will cover the basics of the dropped objects problem as well as the fundamentals of how to prevent dropped tools.

GUARDIAN®

INTRO

Guardian has been successfully delivering working at height safety and rescue training, in both the US and the UK, for over 25 years.

In 2019 we opened the doors to our brand new training headquarters in Pasadena, Texas. This state-of-the-art training facility, one of the largest in the US, enables us to deliver the most relevant, up-to-date training curriculum in the industry.

The facility's massive 22,000 square feet indoor environment allows us to incorporate real-world scenarios using a range of purpose-built structures and confined spaces.

Focusing on hands-on, and the real-time application of classroom learning, our training incorporates the very latest OSHA and ANSI regulatory and standard information.

Guardian believes that education is the most critical factor in increasing safety for all workers at height.

This is why we provide the very best fall protection training; either in our own fantastic facilities, on-site at our customers' locations or on-line, via our web portal; to ensure we can deliver this essential knowledge when and where you need it.

COURSES

COMPETENT PERSON | 16 HOURS

This course has been designed for those individuals who fulfill the role of a Competent Person in either a Construction (OSHA 1926) or General Industry (OSHA 1910) environment.

COMPETENT PERSON REFRESHER | 8 HOURS

This course is intended for those wanting to add new skills, keep up-to-date with regulations, best practices, and equipment advances.

EM385 COMPETENT PERSON | 24 HOURS

This course has been created for anyone who is or will be responsible for being a Competent Person, SSHO, or involved with working at heights on an Army Corps of Engineers project or facility as prescribed by EM385-1-1.

COMPETENT EQUIPMENT INSPECTOR | 6 HOURS

This course has been developed for anyone who will be responsible for the inspection and documentation of Fall Protection equipment on either a job site, department, or organization.

This training is useful for environments that have repair centers or "tool rooms" that issue the equipment to projects or personnel.

COMPETENT PERSON TRAIN THE TRAINER | 40 HOURS

This course has been specifically devised to provide students with a high-level of regulatory insight and all the skills necessary to impart that knowledge on the students they will be teaching.

FALL PROTECTION AWARENESS | 2 HOURS*

This short, instructional course can be tailored to those who are either new or experienced in Fall Protection and are looking to begin or enhance their knowledge of recognizing and mitigating fall hazards.

*Course length can change dependent on content.
