

MORE THAN A SUPPLIER.

Guardian combines a complete height safety portfolio with the digital tools, training, and support that distributors need to sell with confidence and serve customers more effectively.

WE THINK 360.

Height safety can overwhelm the person at the counter. Our Guardian OS digital tools also give them a better way to understand the products they need and how to order them.

WITH YOU EVERY STEP OF THE WAY.

We back our partners with training, dedicated support, and Guardian OS, the first connected digital ecosystem for height safety. With modern tools for transacting and quoting at your team's fingertips, working with customers has never been this simple.

WE BLEND SCALE WITH AGILITY.

Our structure enables us to adapt to changing demands and move fast when speed is needed.

ONE SIZE DOESN'T FIT ALL.

Our height safety range is unrivaled in its blend of breadth and depth. Backed up by complete training and custom engineered systems designed around users' needs.

**HEIGHT SAFETY.
SIMPLIFIED.**
