FALL CLEARANCE

Self-Retracting Lifelines

Anchor Point:
At or Above Dorsal D-ring

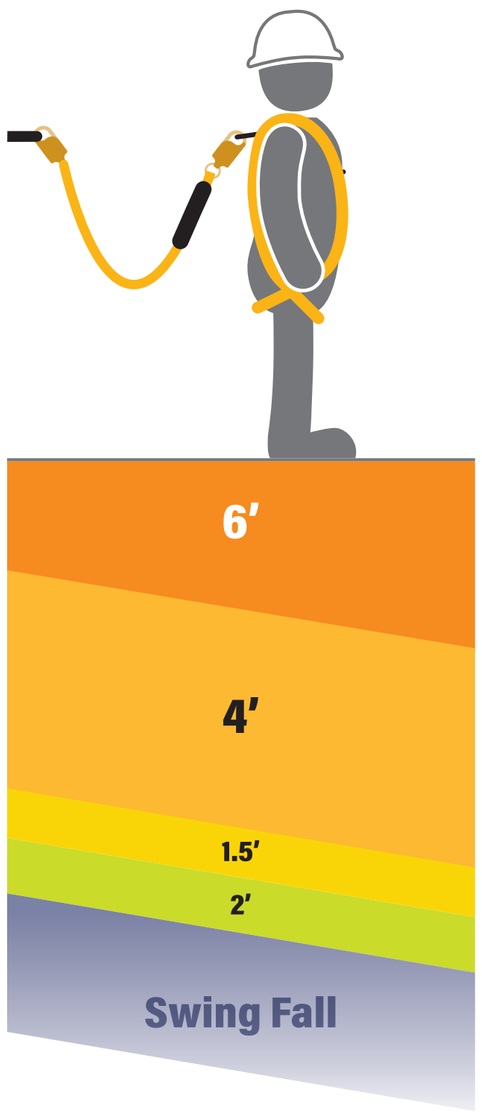

Anchor Point:
At Foot-level

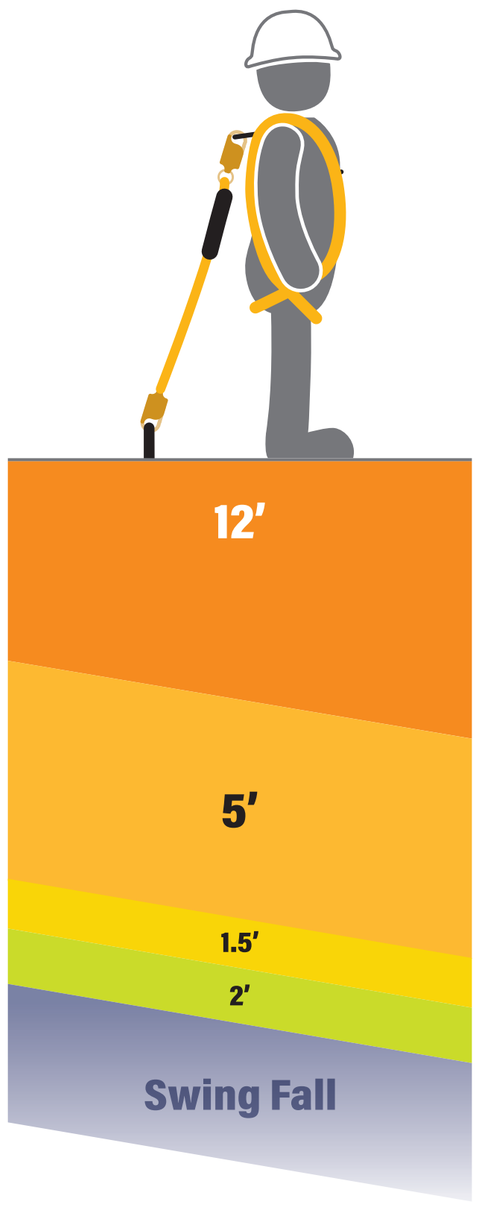

Lanyards

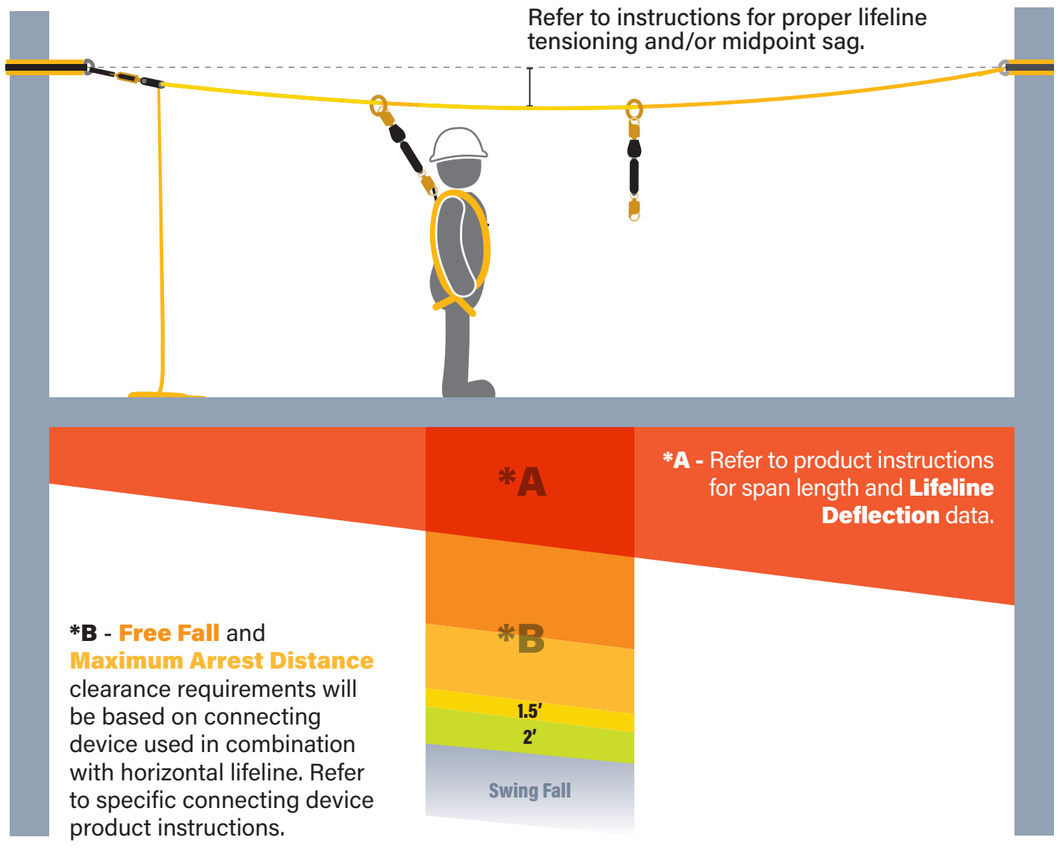

Anchor Point:
Level with Dorsal Ring

Anchor Point:
At Foot-level

Horizontal Lifelines

When calculating fall clearance, account for free fall, maximum arrest distance, harness stretch, a minimum 2-feet safety factor, swing fall, and all other applicable factors.

If there is any risk for lifeline to impact sharp or abrasive edges or surfaces, a device rated for Leading Edge must be used.

- Lifeline Deflection
- Free Fall
- Maximum Arrest Distance
- Harness Stretch
- Safety Factor
- Swing Fall

**HEIGHT SAFETY.
SIMPLIFIED.**

Visit our website to use the
Guardian Fall Clearance Calculator
for Class 1 and 2 Self-Retracting Lifelines.
